

Jaiden X. Schraut

x.schraut@gmail.com | P: (815) 307-2912

EDUCATION

University of Michigan, Ann Arbor, MI

- Bachelors of Science, Data Science

May 2026

GPA: 3.3

PROFESSIONAL EXPERIENCE

Lovelytics, Chicago, IL, *Software Engineering Intern, Labs Team*

Jun 2025 - Aug 2025

- Led development of [Gridlytics AI v1](#) with Copilot, Claude Code, v0, Next JS, FastAPI, on Databricks.
- Collaborated with engineering and sales to design data architecture and UI for multi client solution adaptation.
 - Return Offer. Starting August 2026.

AmbyPro.ai, Remote, *Data Science Spring Intern*

Mar 2025 - Jun 2025

- Scalable document processing for LLM finetuning.

Motorola Solutions, Schaumburg, IL, *Data Science Intern*

May 2024 - Aug 2024

- Designed machine learning models providing proactive preventative maintenance in high volume data from customers. Applied Python and Apache Airflow to automate ETL jobs and concurrent ML training.

INDEPENDENT PROJECTS

[Slash](#), Ann Arbor, MI, Cofounder

Oct 2025 - Present

- Developing an iOS financial wellness app (Claude Code, v0, Figma, SwiftUI, Node.js/TypeScript, Supabase, Plaid, Railway) monitoring transactions in real time and enforces user-set spending limits by programmatically blocking apps via Apple's Screen Time API. Not complete.
- Accepted into Ross Business School [Impact Studio](#), received \$1600 in [UM FUEL grants](#).

UM Rowing Team [Rent-a-Rower](#)

Apr 2026 - May 2026

- Built a full-stack fundraiser management platform (Claude Code, TypeScript, Supabase, Vercel) with a constraint-based assignment algorithm optimizing rower allocation for ~250 jobs/season. Designed for overhead automation and non-technical admin use.
- \$10,300 in revenue collected with the system to date.

Audiknow, Ann Arbor, MI

Oct 2024 - Dec 2024

- Created audio denoising and extraction system notifying users of law enforcement presence with Next.js, Python, fine-tuned STT models, FastAPI, and Twilio. Deployed system in use at Indiana University.

PUBLISHED PAPER

First Author

Oct 2022

- JX Schraut, L Liu, J Gong, Y Yin, **A multi-output network with U-net enhanced class activation map and robust classification performance for medical imaging analysis**, Discover Artificial Intelligence, 2023, 3, 1.
<https://doi.org/10.1007/s44163-022-00045-1>

LEADERSHIP

Entrepreneurial Leadership Program, *Fellow*

Jan 2025 - May 2026

- Selected for a 24 student cohort in year-long immersion of venture-building, startup, and 1:1 entrepreneur mentorship.

Michigan Men's Rowing Team

Aug 2022 - May 2026

- Medaled first or second at American Collegiate Rowing National Championship for 3 straight years.
- Elected Vice President for 2025- 2026 session and managed fundraising of \$35,000+.

Michigan Student AI Laboratory (MSAIL), *Administrator*

May 2023 - May 2025

- Authored AI & ML curriculum and instructed members on reinforcement learning basics (up to DQN, PPO, DDPG).

SKILLS & INTERESTS

- Skills: Python, Swift/SwiftUI, TypeScript/Node.js, Next.js, FastAPI, Supabase, Databricks, Vercel, Plaid API, Git, Claude Code, Computer Vision
- Interests: Competitive Athletics, Startup Ecosystems, Podcasts: Acquired, 20VC, BG2, All-In
